**PETITION TO WITHDRAW HOLDING OF ABANDONMENT
BASED ON FAILURE TO RECEIVE OFFICE ACTION**

RECEIVED

Honorable Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicant hereby files this petition to withdraw a holding of abandonment based on failure to receive an Office Action pursuant to 37 C.F.R. §1.181 and M.P.E.P. §711.03(c)(II).

This application was filed on April 15, 1999 by the undersigned attorney of record. The Applicant submitted a "Response to the Notice to File Missing Requirements" and an Assignment document for recordation to the Patent Office on June 3, 1999. On July 15, 1999, Applicant submitted an Information Disclosure Statement along with references to the Patent and Trademark Office. On August 9, 1999 the Patent Office issued a "Notice of Recordation of Assignment Document" with a recordation date of June 7, 1999. Applicant submitted Status Requests to the Patent Office on April 12, 2000 and May 7, 2002. These status requests were received by the Patent Office as evidenced by the

APPLICANT: PLUMMER

enclosed copies of returned postcards (exhibits 1 and 2), however, Applicant received no response from the Patent Office.

On August 29, 2002, Applicant filed its third status request. On October 7, 2002, the Examiner telephoned Applicant's attorney of record and advised that an Office Action and Notice of Abandonment were sent in error to the law firm of Jordan & Hamburg, located in New York City. No attorney at Jordan & Hamburg has ever been associated with the prosecution of this application. A copy of the Notice of Abandonment dated August 28, 2000, with a mailing address showing Jordan & Hamburg is attached to this petition as exhibit 3. The Notice of Abandonment states that the application was abandoned for "failure to respond to the Office letter mailed 4/17/00." In a telephone conversation on December 3, 2002, the Examiner advised the undersigned's office that the date entry of April 17, 2000 is an error, and should have read January 14, 2000-- the mailing date of the Office Action. A copy of the Office Action dated January 14, 2000 is attached as exhibit 4 to this petition. The Office Action also has the incorrect mailing address of Jordan & Hamburg.

The undersigned did not receive a copy of the Notice of Abandonment until October 28, 2002, when it was sent by the Examiner pursuant to the telephone conversation of October 7. The undersigned did not receive the Office Action mailed January 1, 2000, until it was faxed by the Examiner at the request of the undersigned's office on November 27, 2002.

APPLICANT: PLUMMER
SERIAL NO.: 09/284,684
PAGE: 3

The Office Action set a three-month shortened statutory period for a response, resulting in an initial deadline of April 14, 2000. A search of the file jacket and docket records indicates that the Office communication was not received. A copy of the undersigned's docket record where the nonreceived Office communication would have been entered had it been received and docketed is attached to this petition as exhibit 5. The legend "Recv'd First Office Action?" appearing under the "Matter" column on April 15, 2000, was entered on the undersigned's docket due to the fact that April 15, 2000 was the one year anniversary of the filing of the Application. The check mark shown under the "Comments" column denotes that a status request had been filed with the Patent Office. It was the undersigned's standard procedure at that time to docket the one-year anniversary of the filing date of every patent application with the phrase "Recv'd First Office Action?". This docketing of the anniversary date served as a reminder to check the status of an application in which no Office action had been received. In the present application, the undersigned had not received an Office action, and therefore filed a status request on April 12, 2000. The April 15, 2000 docket entry was checked off accordingly. Had the undersigned received the Office Action in a timely manner, a docket entry would have been made on April 14, 2000 with the legend "Response due 7/14/00" for the six-month statutory deadline for responding. Furthermore, the fourteenth of June and July, 2000 would also include a similar docket entry of "Response due 7/14/00" for the application. None of these dates are docketed on the undersigned's docket.

APPLICANT: PLUMMER
SERIAL NO.: 09/284,684
PAGE: 4

For all of the reasons discussed above, it is clear that Applicant did not receive the Office Action mailed January 14, 2000 and the Notice of Abandonment mailed August 28, 2000. It is therefore respectfully requested that the Patent and Trademark Office withdraw the holding of abandonment in the present application. No fee is required with this petition pursuant to M.P.E.P. §711.03(c).

Respectfully submitted,

NOTICE OF ABANDONMENT

This application is abandoned in view of:

- ☒ Applicant's failure to respond to the Office letter, mailed 4-17-00
- ☐ Applicant's letter of express abandonment which is in compliance with 37 C.F.R. 1.138.
- ☐ Applicant's failure to timely file the response received _____ within the period set in the Office letter.
- ☐ Applicant's failure to pay the required issue fee within the statutory period of 3 months from the mailing date of _____ of the Notice of Allowance.
 - ☐ The issue fee was received on _____.
 - ☐ The issue fee has not been received in Allowed Files Branch as of _____.

In accordance with 35 U.S.C. 151, and under the provisions of 37 C.F.R. 1.316(b), applicant(s) may petition the Commissioner to accept the delayed payment of the issue fee if the delay in payment was unavoidable. The petition must be accompanied by the issue fee, unless it has been previously submitted, in the amount specified by 37 C.F.R. 1.17(l), and a verified showing as to the causes of the delay.

If applicant(s) never received the Notice of Allowance, a petition for a new Notice of Allowance and withdrawal of the holding of abandonment may be appropriate in view of Delgar Inc. v. Schuyler, 172 U.S.P.Q. 513.

- ☐ Applicant's failure to timely correct the drawings and/or submit new or substitute formal drawings by _____ as required in the last Office action.
 - ☐ The corrected and/or substitute drawings were received on _____.

DETAILED ACTION

Claim Objections

1. The numbering of claims is not accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered claims 1-18 been renumbered claims 19-36. and original claims 1-18 canceled as requested. No original claims 19-21 were present before the preliminary amendment.

Claim Rejections - 35 U.S.C. § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 19, 20, 21, 24-30, 33-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Ponzoni et al..

Ponzoni et al. disclose as in claims 19-21, 24, a method of delivering vitamins by adding vitamins in a soluble form to a coffee extract liquid (liquid carrier and natural material) and freeze drying (col. 2, lines 20-47). The amount of vitamins are seen to be calculated as a particular amount of vitamins are added to the composition, as in claim 25, and the mix is ground

Application/Control Number: 09/284684

Page 3

Art Unit: 1761

and then freeze dried, thereby making discrete units as in claim 26. Choosing the amount of vitamins for each unit is seen to be inherent in adding vitamins, and would make for a predetermined dose of vitamins as in claim 27. A simple fraction of the RDA's is seen to be disclosed by the % of vitamins in the mixture as in claim 28 and the product of the vitamin and ingestible carrier is disclosed as above (abstract) as in claim 29, and the carrier is coffee extract which is a natural material as in claim 30. The limitations as to claims 33-36 have been disclosed above.

Claim Rejections - 35 U.S.C. § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 22, 23, and 32, 33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ponzoni et al. in view of Gottlieb et al., Alexander, Langer et al. and Leo.

Claims 22, 23, 32, and 33 further require that the carrier is fruit and in particularly fruit juice or fruit pulp. Gottlieb et al. disclose that it is known to add ascorbic acid (vitamin C.) to carrots and to freeze dry the carrots. (col. 2, lines 20-56). Alexander disclose that it is well known to add vitamins to fruit mixtures (page 1, lines 45-51 and lines 1-90, and page 2, lines 20-23). Langer et al. disclose that it is known to add vitamins to juices (abstract). Leo discloses

Application/Control Number: 09/284684

Page 4

Art Unit: 1761

that it is known to freeze dry pastes of meat, vegetables, and minerals which are combined (abstract). No patentable distinction is seen at this time between fruits and vegetables as they are both materials which contain basically the same ingredients except one is sweeter than the other. As it is known to add vitamins to fruit mixtures and juices, it would have been obvious to freeze dry such because freeze dried vegetable carriers are known such as minced carrots or vegetable paste with added vitamins and minerals are known, and there is no patentable distinction between fruits and vegetables, and it would therefore have been obvious to use fruit paste or juices, instead of vegetable paste or minced carrots in place of the coffee extract of Ponzoni which has been mixed with vitamins to make a freeze dried vitamin added fruit product.
